

CAIR NOx ANNUAL NEW SOURCE ALLOCATION REQUEST FORM

Pursuant to R 336.1831, a new CAIR NOx subject source may request allocations from the new-source set-aside pool of allowances as determined by the State. A new source must submit a written request to the Air Quality Division no later than March 1 of the year during which the source begins operations and must resubmit annual requests until such time as the source becomes subject to R 336.1830 requirements. This form may be used by any source requesting allocation from the annual new source set-aside pool. Calculations regarding the number of allocations requested are defined under Rule 831(2)(b) and (c).

Please type or print clearly. Refer to instructions for additional information to complete this form. Include additional copies of Page 2 as necessary.

^{* -} Attach all calculations used to determine total number of allocations requested. Formulas for determining allocations are found in R 336.1831(2)(b) and (c).

INSTRUCTIONS FOR COMPLETING THE CAIR NOX NEW SOURCE ALLOCATION REQUEST FORM

Page 1:

- 1. **Submission** Indicate if this submission is a new submittal or a renewal request.
- 2. ORIS Enter the Office of Regulatory Information Systems ID assigned to the CAIR NOx Source.
- 3. **SRN** Enter the State Registration Number (SRN) assigned to the source.
- 4. Source Name Enter the source name.
- 5. **Addresses** Enter the Mailing Address, City, State and Zip Code for the source. Provide the source location address, if different from mailing address.
- 6. County Name Enter the county name where the unit is located
- 7. **Source Identification:** Indicate whether an EGU or Non-EGU. (Definitions found in R336.1803)
- 8. **Source Wide Total Allocations requested:** Indicate the source wide total number of allocations requested. (Total of all unit allocations from Page 2.)
- 9. **Certification**: Read the certification statement; enter the name and title of the NOx authorized account representative; sign and date.

Page 2: For each subject unit provide the AQD Unit ID, the installation date, date operations began or are expected to begin, type of unit, the maximum design heat input for the unit, the permitted heat input (if appropriate), the permitted emission rate, the total amount of allocations requested for each unit, the control period of the request and the supporting calculation for each unit. If more space is required, please attach a separate sheet listing the same details as listed below:

- 1. **AQD Unit ID** Provide the AQD Unit ID from the Michigan Air Emissions Reporting (MAERs) program.
- 2. Installation Date (MM/DD/YYYY) Provide the installation date for each emission unit.
- 3. **Date Operations Began (MM/DD/YYYY)** Provide the date operations began or will begin for each emission unit.
- 4. **Type of Unit:** Indicate the type of unit in operation; boiler, combined cycle or turbine.
- 5. Maximum Design Heat Input Value: Indicate the nameplate capacity for the unit.
- 6. **Permitted Heat Input value**: Indicate the permitted heat input value (if appropriate).
- 7. **Permitted Emission Rate**: Indicate the permitted emission rate (if appropriate).
- 8. **Total Number of Allocations requested**: Enter the number of allocations requested for the unit, based on the calculations (detailed description in R 336.1831(2)(b) and (c)).
- 9. **Control Period:** Indicate which CAIR NOx control period for each unit the allocations are being requested for.
- 10. **Hours of Operation:** Indicate the total expected hours of operation for each unit in the control period.
- 11. **Calculations:** Provide the supporting calculations for each unit.
